Din smartphone kan mere, end de fleste tror. Udover at være en telefon med alle de sædvanlige funktioner som opkald og sms er den også en lommecomputer, som du kan bruge til at surfe på nettet, tjekke dine mails, tage billeder og redigere dem, sætte alarmer og meget mere. Vi gennemgår alt fra opsætning af din telefon til hvordan din Android smartphone betjenes. Vi ser også på, hvordan du beskytter dine personlige oplysninger. Lær også hvordan du smartest håndterer beskeder, e-mails, musik og fotos samt får styr på backup og synkronisering. Gennem let forståelige vejledninger lærer du smarte genveje og funktioner at kende, så du ikke spilder tid på omveje og frustrationer.
